N/C: recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators

Liz drank $1 / 3$ of her drink. If there is 200 ml left, how much drink was there to begin with?

Calculate $3 / 5$ of 20 ...

Dexter has used a bar model and counters to find $\frac{1}{4}$ of 12

Amir uses a bar model and place value counters to find one quarter of 84

N/C: recognise and show, using diagrams, families of common equivalent fractions
